ONLINE

FOUNDATION CERTIFICATE OF DOMESTIC ABUSE & VIOLENCE

The Foundation Certificate of Domestic Abuse and Violence covers the role of the GP in preventing, intervening, supporting and following up victims of suspected abuse, in addition to helping vulnerable patients access support services and continuing care.

As trusted primary care providers, general practitioners have a unique opportunity to identify and manage patients facing various forms of abuse, violence and neglect, which may have escalated during the Covid pandemic and affect children, adults (often women) and the elderly.

The knowledge gained in the online certificate course will enable you to assess and manage neglect, physical and sexual abuse in children and women in primary care, and equip you with an understanding of elder abuse issues, injury types and the effects of ageing on healing – including an overview of mandatory reporting and onward referral.

TOPICS COVERED

- Child physical abuse and neglect
- Child sexual abuse
- Domestic violence and women's health
- Elder abuse

COURSE DELIVERY AND REQUIREMENTS

This course consists of four online modules and is for physicians and degree-qualified health professionals. There are no prerequisites.

If you have completed the Domestic Violence and Women's Health module as part of the HealthCert Professional Certificate of Women's Health, you may request a fee reduction for this course.

FEES	Foundation Certificate	$995

CERTIFICATION
