# CERTIFICATE COURSES IN AESTHETIC MEDICINE & CLINICAL PROCEDURES

**REGISTER NOW**

# BRISBANE-2-3 MARCH 2019

## PROFESSIONAL CERTIFICATE OF AESTHETIC MEDICINE

[LEARN MORE](#)

*"If you're a GP and want to do aesthetic work, get into this course. No regrets!"*

– Dr M. Khaled, NSW –

Featuring live demonstrations and hands-on practicals on pork parts, the Professional Certificate of Aesthetic Medicine will help you develop solid foundation knowledge in aesthetic principles and the safe practice of quick, highly requested and low-cost-to-deliver aesthetic treatments for clinical conditions.

**40** Category 1  
QI&CPD points

**30** PRPD points

- Concepts of aesthetic medicine, facial ageing and skin classifications
- Chemical peels and topical skin treatments
- Facial anatomy, facial anaesthesia, and planning of cosmetic procedures
- Dermal fillers and basic filler techniques
- Chemical composition and safe practice of Botulinum toxin
- How to integrate aesthetic services into your practice

## ADVANCED CERTIFICATE OF AESTHETIC MEDICINE

[LEARN MORE](#)

*"This is the best course for beginners and intermediate doctors learning aesthetic medicine."*

– Dr F. Azarian, QLD –

The Advanced Certificate of Aesthetic Medicine will increase your clinical knowledge in aesthetic principles, demonstrate the latest aesthetic medicine treatments and enable you to practise the procedures on pork parts and simulated models.

**40** Category 1  
QI&CPD points

**30** PRPD points

- Laser physics and safety
- Safe hair and tattoo removal
- Facial anatomy and implications for safe treatment
- Nerve blocks and facial nerve anatomy
- Vascular anatomy and management of complications
- Botulinum toxin for the lower face
- Dermal fillers for various sites
- Cosmeceutical ingredients and uses
- Business plan for an aesthetics clinic

## EXPERT WORKSHOP (PREREQUISITE OF THE PROFESSIONAL DIPLOMA OF AESTHETIC MEDICINE)

[LEARN MORE](#)

*"Practical, evidence-based, unbiased information that translates quickly and easily into clinical practice."*

– Dr A. Bascomb, SA –

The final stage of the three-part Professional Diploma of Aesthetic Medicine, this workshop will help you acquire the most advanced clinical knowledge and critical awareness of aesthetic medicine principles and treatment options. There is a greater focus on difficult and complex cases in aesthetic medicine.

**40** Category 1  
QI&CPD points

**30** PRPD points

- Vascular treatments, hair removal and scar management
- Pigmentation disorders and melasma
- Resurfacing (CO2 laser, Erbium laser, radiofrequency)
- Cryolipolysis and body shaping
- Acne and rosacea treatments
- Difficult Botulinum toxin cases
- Dermal fillers for forehead and temples

*"Superb! The course has enhanced my skills and helped me learn office procedures. I think it will help me in my practice. Recommended for all."*

– Dr S. Saeed, QLD –

The majority of conditions requiring surgical intervention can be diagnosed and treated in primary care – if the practitioner has the skills and confidence to do so. The Professional Certificate of Clinical Procedures teaches a broad range of surgical procedures, local anaesthetic approaches, post-operative care, and suturing techniques.

The highly practical course is delivered face-to-face in a small group setting and features surgical sessions on pork parts and simulated models. The course is approved for the Rural Procedural Grant program. Graduates can apply for Accreditation of Prior Certified Learning (APCL) for module 2 of the Postgraduate Diploma in Minor Surgery and then for a Master of Science studied through the Rila Institute of Health Sciences and awarded by the University of Plymouth (UK).

**40** Category 1  
QI&CPD points

**30** PRPD points  
+ MOPS

- Lacerations
- Leg ulcers
- Lipomas
- Abscesses
- Sebaceous cysts

- Foreign bodies
- Ingrown toenails
- Warts and skin lesions
- Haematomas
- Anal-rectal conditions

- Aseptic technique
- Local anaesthesia
- Advanced suturing
- Post-operative care
- Dressing selection

## ADVANCED WORKSHOP OF JOINT PUNCTURE AND SOFT TISSUE INJECTIONS

[LEARN MORE](#)

*"The skills gained in this workshop are a must-have for general practice. The workshop provides useful, tried and tested pathways for evidence-based treatment."*

– Dr B. Thompson, ACT –

**The University of Queensland | Friday, 1 March 2019, 6:00pm – 9:45pm**

The evening workshop will teach you helpful techniques in the diagnosis and therapy of various musculoskeletal conditions. The procedures are most often used to reduce inflammation, provide pain relief and alleviate stiffness in tendons, muscles and joints of the shoulder, knee, or hip. The program thus addresses a highly sought-after service of the ageing population.

The Advanced Workshop is delivered face-to-face in a small group setting. It combines supporting theory with hands-on performance on cadavers under the guidance of an experienced medical practitioner who specialises in the field. The practical workshop can be completed individually or as stage 1 of the Advanced Certificate of Clinical Procedures.

**7** Category 2  
QI&CPD points

**6** PRPD points

- Principles of joint puncture
- Principles of soft tissue injections

- Joint anatomy and safe treatment
- Local anaesthesia and safe practices

- Specific conditions that require joint puncture and soft tissue injections
