SKIN CANCER

"I have been a GP for 35 years doing procedures as part of my rural practice. I wish this program was available years ago. Fantastic! It ticked all the boxes for me."

– Dr R. Cristofaro, NSW –

PROFESSIONAL CERTIFICATE OF SKIN CANCER MEDICINE

[LEARN MORE](#)

Offering the ideal starting point for building your core knowledge, this course will teach you the foundations of skin cancer diagnosis with dermoscopy and basic surgical and non-surgical treatments, as well as how to set up your practice, choose the right equipment, and appropriately bill for procedures.

- Skin anatomy and histology
- Diagnosis with dermoscopy
- Benign and malignant skin lesions
- Melanoma management
- Dermatopathology
- Topical treatment options
- Punch and shave biopsies
- Elliptical excisions and suturing
- Workflow and Medicare billing

ONLINE + OPTIONAL PRACTICAL WORKSHOP SATURDAY, 21 NOVEMBER 2020

ADVANCED CERTIFICATE OF SKIN CANCER MEDICINE

[LEARN MORE](#)

This intermediate course will solidify and advance your knowledge in dermoscopy and surgical and non-surgical skin cancer treatments. The optional practical workshop provides hands-on training in rarely covered skin cancer management techniques and offers an excellent introduction to more advanced dermoscopy.

- Advanced dermoscopy
- Biopsy techniques
- Curettage and cautery
- Diathermy
- Topical treatment options
- Local anaesthetics
- Incisions / haemostasis
- Large elliptical excisions
- Lower leg grafts
- Suturing, including paper-thin skin

ONLINE + OPTIONAL PRACTICAL WORKSHOP SATURDAY, 21 NOVEMBER 2020

PROFESSIONAL CERTIFICATE OF SKIN CANCER SURGERY

[LEARN MORE](#)

This foundation course will teach you how to perform surgical procedures on different anatomical areas with optimal scarring results. In the optional practical workshop, practise a range of flaps and grafts, large elliptical excisions and suturing techniques on pork parts.

- Surgical anatomy and skin lines
- Local anaesthetic blocks
- Advanced suturing techniques
- Large elliptical excisions
- Advancement flaps
- Rotation flaps
- Full thickness grafts
- Dog ear repairs
- Wound care & dressings

ONLINE + OPTIONAL PRACTICAL WORKSHOP SUNDAY, 22 NOVEMBER 2020

ADVANCED CERTIFICATE OF SKIN CANCER SURGERY

[LEARN MORE](#)

This course is ideal for doctors who treat skin cancer patients regularly and wish to hone advanced surgical techniques. The program focuses on various types of flaps and grafts to minimise scarring in cosmetically sensitive and anatomically complex areas.

- Anatomy of the head, neck, face, and limbs
- Advancement flaps and rhomboid flaps on the face, upper lip and lateral nose
- Rotational flaps in closure of scalp, cheek and distal limb defects
- Full-thickness and split-thickness grafts on the face and lower limb defects
- Closure of ear defects with flaps, grafts and wedges
- Closure techniques to minimise scarring

ONLINE + OPTIONAL PRACTICAL WORKSHOP SUNDAY, 22 NOVEMBER 2020

AESTHETIC MEDICINE

"This was a wonderful and incredibly informative program - an amazing introduction to aesthetic medicine."

— Dr. B. Joynton, QLD —

PROFESSIONAL CERTIFICATE OF AESTHETIC MEDICINE

[LEARN MORE](#)

This introductory course will help you develop solid foundation knowledge in the safe practice of quick, highly requested and low-cost-to-deliver aesthetic treatments for clinical conditions.

- Concepts of aesthetic medicine
- Facial anatomy and skin classifications
- Planning of cosmetic procedures
- Chemical peels & topical treatments
- Botulinum toxin injections
- Dermal fillers and basic filler techniques
- Set up and marketing of services in general practice

ONLINE + OPTIONAL PRACTICAL WORKSHOP SATURDAY, 21 NOVEMBER 2020

PROFESSIONAL DIPLOMA OF AESTHETIC MEDICINE

[LEARN MORE](#)

Counting towards clinical attachments in Australia and the UK, this course will help you develop the most advanced clinical knowledge with immediate applicability to your day-to-day work.

- Laser use for melasma and resurfacing
- Threadlifts
- Ultrasound treatments
- Dermal fillers, biostimulators and complex applications
- Radio frequency treatments
- Acne and rosacea management
- Cryolipolysis and body shaping
- Non-aesthetic use of lasers
- Complex case discussions

ONLINE + OPTIONAL PRACTICAL WORKSHOP SUNDAY, 22 NOVEMBER 2020

NEW COURSE DELIVERY FORMAT

These courses comprise of three parts, featuring flexible online learning at your own pace, interactive live web tutorials with additional content and demonstrations of procedures as well as optional small group practical workshops.

**AVAILABLE
FULLY ONLINE OR
WITH OPTIONAL
WORKSHOP**

1. **Online Lectures:** Complete all eight course modules at your convenience and at your own pace online, covering clinical theory, video demonstrations of procedures and case study discussions.
2. **Live Web Tutorials:** Reinforce your learning and ask any questions you might have in four interactive webinars with the presenters, covering real patient case discussions and additional video demonstrations of procedures that you can follow along.
3. **Optional Skills Workshop in a CovidSafe Environment:**
21 or 22 November 2020, Brisbane Convention & Exhibition Centre.
Apply your theoretical knowledge in a practical workshop, delivered in a small group setting, and practise various procedures on pork parts and simulated models under expert supervision and guidance.

CLINICAL PROCEDURES

"Superb! The course has enhanced my skills and helped me learn office procedures. I think it will help me in my practice. Recommended for all."

— Dr S. Saeed, QLD —

ADVANCED WORKSHOP OF NON-SCALPEL VASECTOMY

[LEARN MORE](#)

One-day workshop: Saturday, 21 November 2020

Gain an introduction to this advanced procedure for permanent male fertility control. The workshop is ideal for experienced doctors who already provide traditional vasectomies and would like to learn the non-scalpel procedure.

- Determining the correct steps in the process of non-scalpel vasectomy procedures
- Recognising the safety rules to avoid complications in non-scalpel vasectomy procedures
- Determining the necessary equipment for non-scalpel vasectomy procedures
- Planning patient counselling
- Analysing patient case scenarios

ADVANCED WORKSHOP OF INTRAUTERINE SYSTEMS

[LEARN MORE](#)

One-day workshop: Sunday, 22 November 2020

This workshop will give you a step by step practical introduction to advanced intrauterine system procedures with the opportunity to practise on simulated models.

- Determining the correct steps in the process of intrauterine procedures
- Recognising the safety rules to avoid complications during intrauterine procedures
- Determining the necessary equipment for intrauterine procedures
- Planning patient counselling
- Analysing patient case scenarios
