SKIN CANCER MEDICINE

"I have been a GP for 35 years doing procedures as part of my rural practice. I wish this program was available years ago. Fantastic! It ticked all the boxes for me."

– Dr R. Cristofaro, NSW –

PROFESSIONAL CERTIFICATE OF SKIN CANCER MEDICINE

[LEARN MORE](#)

The Professional Certificate of Skin Cancer Medicine has been designed for time-poor GPs wishing to diagnose and treat commonly encountered skin lesions in primary care. This is the foundation course in the three-part pathway leading up to the Professional Diploma of Skin Cancer Medicine.

Offering the ideal starting point for building your core knowledge, this course will teach you the foundations of skin cancer diagnosis with dermoscopy and basic surgical and non-surgical treatments, as well as how to set up your practice, choose the right equipment, and appropriately bill for procedures.

The optional practical workshop features hands-on surgical sessions on pork parts. The online theory offers a flexible learning experience with video lectures and online case discussions.

- Skin anatomy and histology
- Non-pigmented skin cancers
- Elliptical excisions
- Skin history and examination
- Melanoma management
- Suturing techniques
- Three Point Checklist
- Dermatopathology
- Wound care
- Wound complications
- Common benign skin lesions
- Topical treatment options
- Workflow in general practice
- Pigmented skin lesions
- Punch and shave biopsies
- Medicare billing

RACGP CPD Accredited
Activity 40 Points

ACCREDITED ACTIVITY 2020 - 2022

ACRRM PDP units: 27 Educational Activity,
18 Performance Review + 16 MOPs Points
(if practical workshop completed)

ONLINE + OPTIONAL PRACTICAL WORKSHOP SATURDAY, 28 NOVEMBER 2020

ADVANCED CERTIFICATE OF SKIN CANCER MEDICINE

[LEARN MORE](#)

The Advanced Certificate of Skin Cancer Medicine will solidify and advance your knowledge in dermoscopy and surgical and non-surgical skin cancer treatments. This is the intermediate course in the three-part pathway leading up to the Professional Diploma of Skin Cancer Medicine which counts towards postgraduate qualifications and clinical attachment programs in Australia and Europe.

The program offers an excellent introduction to more advanced dermoscopy to help you accurately assess the majority of lesions in your practice. The optional practical workshop provides hands-on training in rarely covered skin cancer management techniques. Working on pork parts and torso models, you will plan and practise various procedures under the guidance of experienced skin cancer doctors.

- Dermoscopy: Chaos and Clues
- Surgical planning
- Elliptical excisions
- Local anaesthetics
- Lower leg grafts
- BCC and SCC
- Advanced biopsy techniques
- Incisions / haemostasis
- Melanoma
- Curettage and cautery
- Advanced suturing techniques
- Patient case discussions
- Diathermy
- Topical treatment options

SKIN CANCER SURGERY

"Every GP should do this course to know the basics of skin cancer surgery. It was a very important platform for learning - everything was well thought out and well organised."

– Dr B. Roy, VIC –

PROFESSIONAL CERTIFICATE OF SKIN CANCER SURGERY

[LEARN MORE](#) 

The Professional Certificate of Skin Cancer Surgery is ideal for practitioners wishing to learn skin cancer surgery techniques for the management of more complex skin cancer cases. This is the foundation course in the three-part pathway leading up to the Professional Diploma of Skin Cancer Surgery which counts towards postgraduate qualifications and clinical attachment programs in Australia and Europe.

In the optional practical workshop, you will learn how to perform surgical procedures on different anatomical areas with optimal scarring results and practise a range of flaps and grafts, large elliptical excisions and suturing techniques on pork parts. The workshop is presented in a small group setting with experienced skin cancer doctors and surgical assistants to guide you in your skills practise.

- Surgical anatomy
- Dog ear repairs
- Advanced suturing techniques
- Skin lines
- Rotation flaps
- Wound care
- Local anaesthetic blocks
- Advancement flaps
- Dressing selection
- Large elliptical excisions
- Full thickness grafts
- Medico-legal regulations
