

PRIMARY CERTIFICATE OF SEXUAL HEALTH FOR MEN

**ONLINE**

The Primary Certificate of Sexual Health for Men focuses on common sexual health presentations in male patients to equip medical practitioners with the knowledge to manage these concerns in primary care.

Delivered by leading experts in the field, the online course explores the diagnosis and management of erectile and ejaculation dysfunction, penile conditions (including Peyronie's disease) and androgen deficiency. You will also learn how to discuss sensitive topics (such as sexual problems) with male patients, manage fertility screening and interpret results, conduct an examination of the male external genital organs, and determine when it is appropriate to refer to a specialist.

TOPICS COVERED

- Male sexual dysfunction
- Penile conditions and fertility check
- Androgen deficiency

COURSE DELIVERY AND REQUIREMENTS

This course consists of three online modules and is for physicians and degree-qualified health professionals. There are no prerequisites.

FEES

Primary
Certificate **\$495**

CERTIFICATION

Upon successful completion of the course, you will receive a HealthCert certificate and accredited CPD hours. Please refer to our website for details.

This Primary Certificate course allows you to gain an insight into the HealthCert Professional Diploma of Men's Health program by exploring one of the most prevalent topics in the field. Should you wish to fast-track your studies and receive financial credit into further courses, you may complete this Primary Certificate course and receive partial Recognition of Prior Learning and cost savings towards the Professional Certificate of Men's Health, which is stage one of the three-part Professional Diploma program in Men's Health (reviewed by Griffith University): www.healthcert.com/men
