

PROFESSIONAL CERTIFICATE OF
**SKIN CANCER
MEDICINE**

ONLINE + OPTIONAL WORKSHOP

Skin cancer is one of the most common dermatological conditions seen in general practice – and it is not overly complex to manage if you have the right skill set. Due to a lack of dermatologists, general practitioners play a vital role in managing the skin cancer epidemic and providing effective care to patients with skin cancer concerns.

The foundation course in the three-part pathway, the **Professional Certificate of Skin Cancer Medicine** is the ideal starting point for medical professionals who wish to build their core knowledge in skin cancer management and acquire vital diagnostic skills and basic management techniques to provide effective care to patients with skin cancer concerns. You will receive an introduction to dermoscopy and learn proven techniques to confidently diagnose skin cancer and perform basic treatments in the primary care setting.

Professional Certificate of
Skin Cancer Medicine

Advanced Certificate of
Skin Cancer Medicine

Professional Diploma of
Skin Cancer Medicine

TOPICS COVERED

- Skin anatomy and histology

COURSE DELIVERY AND REQUIREMENTS

The course is suitable for general practitioners and International Medical Graduates, and assumes no prior knowledge or training in the field. The course is delivered in three parts:

1. **Online lectures:** Start your online studies anytime and complete the eight modules at your convenience.
2. **Live web tutorials:** Reinforce your learning, ask questions and follow along demonstrations of procedures from home.
3. **Optional workshop:** Apply theory in practice and cement your knowledge through guided hands-on workshops in select locations.

PRESENTERS

Dr Simon Clark
The University of Queensland

Dr Hamilton Ayres
National Skin Cancer Centres

Dr Scott Arnold
The University of Queensland

Mr Paul Elmslie
HealthCert
National Skin Cancer Centres

Mr Matt Woollard
National Skin Cancer Centres

THE COURSE INCLUDES

Pre-reading activities, an optional practical workshop with expert demonstrations and practical hands-on activities, interactive live web tutorials and further readings, individual assessment tasks, and two online examinations.

CERTIFICATION

Upon successful completion of the course, you will receive the HealthCert Professional Certificate and accredited CPD hours. Please refer to our website for details.

POSTGRADUATE STUDIES

This course is the first stage of the HealthCert Professional Diploma of Skin Cancer Medicine pathway. Upon successful completion of the pathway, graduates are guaranteed for RPL for the unit IMED7010, part of the Graduate Certificate of Medicine (Skin Cancer) which is the first step in the Master of Medicine (Skin Cancer) at The University of Queensland. There are no further requirements for this RPL; it is automatic and guaranteed and provides a saving on fees.

Graduates can also apply for Accreditation of Prior Certified Learning for module 3 of the Postgraduate Diploma in Dermatology studied through the Rila Institute of Health Sciences and awarded by the University of Plymouth (UK), with a time saving of 40 per cent. Graduates can then apply for credit from the Postgraduate Diploma to the Master of Science in the specialism awarded by the University of Plymouth.

Clinical attachments are also available in Australia and at university teaching hospitals overseas, providing the opportunity to observe skin cancer treatments and ask questions of experts.

WORKSHOP DATES AND LOCATIONS

Workshops available throughout the year in Sydney, Melbourne, and Brisbane. Please refer to our website for details.

FEES

From \$1795

Bundle pricing available with purchases of two or more courses in a pathway. Further savings available for GP Registrars. Deferred payment options available.

Don't miss this course! It's interesting, practical and enjoyable. After attending courses for 30 years, I rank this as number one. The course is very useful to all doctors who diagnose and treat skin lesions.

- Dr N. Lo, NSW -
